MS SERIES.

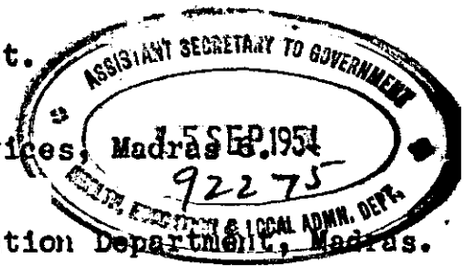
G.O. No. 1521 Health

Dated 2-6-1955

[Despatch Abstract,]

Medl. Institution — Lady Goschen Hospital, Mangalore — Appointment of additional Staff — sanctioned

edical Department.



From

Lt. Col. Sangham Lal, MBBS.,FRCS.,DOMS.,
Director of Medical Services, Madras 8.

To

The Secretary to Government,
Health, Education and Local Administration Department, Madras.

Ref. No. 42104-E.3/54, dated 13 September 1954.

Sir,

Sub:-Medical institutions - Government Lady Goschen hospital Mangalore - Increase of bed strength and employment of additional staff Sanction requested -

---

The present sanctioned bed strength of the Government Lady Goschen hospital, Mangalore is 120. Consequent on the construction of a ward of 40 beds in the hospital, sanctioned in G.O.No. 1093 Health, dated the 2nd April 1951, the Superintendent, Government Lady Goschen hospital, Mangalore, has submitted proposals for the increase of the bed strength of the hospital from 120 to 160. I, therefore, recommend that the bed strength of the hospital be increased from 120 to 160.

Consequent on the proposal to increase the bed strength of the hospital to 160 the Superintendent has asked for the employment of the following staff:-

Assistant surgeon	1	Maternity assistant	1
Nursing Superintendent, Grade III	1	Peons	2
Head Nurses	2	Gate peon	1
Nurses	2	Women nursing orderlies	5
Pupil nurses	10	women toties	(3)
Upper division clerk	1	Sweeper	1
Lower "	1	Water woman	1
Pharmacist	(1)	Lascars	(4)
		Cooks	(2)

ASSISTANT SURGEON (1): -- The Superintendent has stated that the existing three woman assistant surgeons are found quite insufficient to attend to the work of the hospital. He has also stated that the same number of Medical Officers are being continued for the last 20 years even though the sanctioned bed strength had risen from 80 to 120. Now the proposal is to enhance the bed strength from 120 to 160. It is reasonable that for an increase of a bed strength of 40 there should be an additional assistant surgeon in the institution. Hence I recommend that sanction may be accorded for the employment of an additional Assistant Surgeon in the hospital from the date on which the bed strength is increased.

NURSING-SUPERINTENDENT, GRADE III: -- According to the approved scale, a Nursing Superintendent can be employed in a hospital the bed strength of which is over 100 or more. The present bed strength of the hospital is 120 and it is now proposed to increase it to 160. Hence the services of a Nursing Superintendent are quite necessary. I recommend that a post of Nursing Superintendent, III Grade may be sanctioned.

HEAD NURSES (2): -- According to the approved scale of employment, a Head Nurse can be employed for every 50 beds. Now it is proposed to increase the bed strength of the hospital from 120 to 160. The hospital will therefore be eligible to have three posts of Head Nurses. There is at present only one post of Head Nurse sanctioned to this hospital. I therefore recommend that two additional posts of Head Nurses may be sanctioned.

NURSES (2): -- Applying the approved scale of one nurse for every 15 beds in training institutions, the hospital, with the proposed increase of bed strength to 160, will be eligible to have not less than 10 nurses. There are at present only 8 nurses sanctioned for it, and the employment of two more nurses as against three asked for by the Superintendent of the hospital is recommended for the sanction of the Government.

PUPIL NURSES (10): -- According to the approved scale of

employment of pupil nurses, viz., 2.5 nurse pupils for every 15 beds, the hospital with a bed strength of 160, is eligible for 27 pupil nurses. At present there are only four pupil nurses. Hence the employment of 10 pupil nurses asked for by the Superintendent is recommended for the sanction of the Government.

UPPER DIVISION CLERK (1) }
LOWER DIVISION CLERK (1) } : -- There are only three Lower Division Clerks attached to the hospital at present. When the bed strength of the hospital is increased to 160 there is a strong case for appointment of at least two more clerks according to the prescribed proportion of one clerk to every 30 beds. When the additional clerks are sanctioned the total strength of clerks will be five Lower Division clerks as it is essential that one of the posts should be on a higher scale for exercising proper supervision over the clerks to enable the efficient discharge of their duties the appointment of one Upper Division Clerk is necessary. It is therefore recommended that one Upper Division clerk and one Lower Division clerk may be sanctioned.

COMPOUNDERS (2): -- According to the prescribed scale of one compounder for every 100 out-patients and one additional compounder for every 75 in-patients, the hospital with an out-patient attendance of 436 and an in-patient attendance of 184 during 1963 can employ 6 compounders. There are already three compounders employed in the hospital at present. Hence the proposal of the Superintendent for the employment of two additional compounders in the hospital which is within the prescribed scale is recommended to Government for sanction.

MATERNITY ASSISTANT (1): -- It is reported by the Superintendent that including the provision to be made in the new set up there will be two delivery rooms. There are at present two Maternity Assistants in the hospital. Hence the employment of one additional Maternity Assistants asked for by the Superintendent is recommended for the sanction of Government.

PEONS (2): -- Only one peon is employed in the hospital at present. The Superintendent has requested the employment of two additional peons as their services are absolutely essential for delivery of local tappals, encashing of bills and getting blood from Blood Bank of the Headquarters hospital as and when required. The existing peon is attending to all these duties in addition to attending on officers and the clerks in the office. As the work in the hospital cannot get on smoothly without the employment of two additional peons, I recommend their employment in the hospital for sanction of the Government.

GATE PEON (1): -- There is no post of Gate peon in the hospital at present. The Superintendent has asked for the employment of a gate peon in the hospital to control the visitors entering into the hospital during odd hours. In the interest of safety to the institution the employment of a gate peon asked for by the Superintendent is recommended to Government for sanction.

SWEEPER : -- There is already a post of sweeper in the hospital. The Superintendent has asked for the services of an additional sweeper as the compound is too big and the existing sweeper is unable to cope with the work. If an additional sweeper is sanctioned then both of them can be deputed to clean the compound and also to sweep and swab the places in the hospital other than wards. In the circumstances I recommend the employment of an additional sweeper in the hospital.

NURSING ORDERLIES (WOMEN) (5): -- The number of nursing orderlies employed in the hospital at present is 15. According to the prescribed scale of one nursing orderly for every 8 beds the hospital after the increase of bed strength to 160 can employ 20 nursing orderlies Hence the proposal of the Superintendent for the employment of five additional nursing orderlies in the hospital is recommended to Government for sanction.

p.t.o.

WOMEN TOTIES (3): -- The number of toties employed in the hospital at present is 10. According to the scale of employment of one toty for every 15 beds where water carriage system is available the hospital after the increase of bed strength to 160 can employ 11 toties. Hence the employment of an additional toty as against three toties asked for by the Superintendent will be sanctioned by me under the powers delegated.

WATER-WOMAN (1): -- As there are already three water-women employed in the hospital, I do not recommend the employment of an additional water-woman asked for by the Superintendent.

LASCARS (4): -- In view of the full compliment of nursing orderlies asked for above, I do not recommend the employment of four lascars asked for by the Superintendent. The work will be adjusted and managed by the nursing orderlies.

COOKS (2): -- The number of cooks employed in the hospital at present is two. According to the scale of employment of one cook fo every 50 beds the hospital after the increase of bed strength to 160 can employ three cooks. Hence the employment of an additional cook in the hospital which is within the scale prescribed will be sanctioned by me under the powers delegated.

PHARMACIST (1): -- The Superintendent has asked for the employment of a Pharmacist in the hospital to have a check over the issu of drugs, stock accounts, etc., as the duties of the Pharmacist are attended to by the existing three compounders by turns. Only hospitals which have five or more compounders on the staff are eligible for the employment of a Pharmacist. As the Lady Goschen hospital is at present having only three compounders, necessary proposals for the employment of a Pharmacist will be submitted separately after the two posts of compou ders now asked for is sanctioned by the Government.

The extra cost both recurring and non-recurring that is involved in the proposal is furnished in the Annexure.

I request that the Government may be pleased to consider the proposal as a Part II Scheme for 1955-56.

Yours faithfully,

for Director of Medical Services.

pvs/11-9.

ANNEXURE.

	Immediate cost.		Ultimate cost.	
Assistant Surgeon (1): (200-25/2-400)				
Pay	150 x 1 x 10 =	1,500	272 2/9 x 1 x 12 =	3,266-11

Explanatory note

In the Lady Cowasji Hospital, Manpada, a ward of 40 beds has been constructed. Since the daily average number of in-patients treated in the hospital during 1953 was 184, the D.H.S. has proposed that the bed-strength of the hospital may be increased from 120 to 160 and that additional staff may be sanctioned to cope with the increased work. The hospital is a teaching institution to impart clinical instruction to the students of the Sir Kasturba Medical College, Manpada. The administrative additional staff asked for is indicated below:—

	Staff now employed for 120 beds	Staff admissible for 160 beds	Addl staff asked for
Asst. Surgeon	3	No prescribed scale	1
Nursing Supdt.	—	1	1
Head nurses	1	3	2
Nurses	8	10	2
Pupil nurses	4	27	10
Clerks	3 (1 UD clerk)	5	2 (1 U.D.C. & 1 L.D.C.)

EXPLANATORY NOTE

In the Lady Goschen Hospital, Mangalore, a ward of 40 beds has been constructed. Since the daily avarage number of in-patients treated in the hospital during 1953 was 184, the Director of Medical Services has proposed that the bed-strength of the hospital may be increased from 120 to 160 and that additional staff may be sanctioned to cope with the increased work. The hospital is a teaching institution to impart clinical instruction to the students of the Kasturba Medical College, Manipal. The admissibility of the additional staff asked for is indicated below:-

	Staff now employed 120 beds	Staff admissible for 160 beds.	Additional staff asked for.
Assistant Surgeons	3	No prescribed scale.	1
Nursing Superintendent	-	1	1
Head Nurses	1	3	2

ABSTRACT

MEDICAL INSTITUTIONS- Government Lady Goschen Hospital, Mangalore- Increase in bed strength from 120 to 160 and employment of additional staff- Orders passed.

Health, Education and Local Administration Department.

G.O.Ms.No. 1221 Health. Dated the 2nd April, 1955.
Read the following;-

From the Director of Medical Services, No.42104-E3/54, dated 13-9-1954.

ORDER:

The Government sanction the increase in the bed strength of the Government Lady Goschen Hospital, Mangalore, from 120 to 160 and the creation of the following posts on the usual scales of pay and allowances from the date of filling up of the posts till the end of February, 1956;-

(i) One post of Assistant Surgeon.
(ii) One post of Nursing Superintendent, III Grade.
(iii) Two Posts of Head-Nurses.
(iv) Two posts of Nurses.
(v) One post of Upper Division Clerk.
(vi) One post of Lower Division Clerk.
(vii) Two posts of Compounders.
(viii) One post of Maternity Assistant.
(ix) Three posts of Peons including a gate peon.
(x) One post of Sweeper.
(xi) Five posts of Nursing Orderlies.
(xii) One post of Toti.
(xiii) One post of Cook.

2. The Government also sanction stipends at the usual scale to ten Nurse-pupils in the Lady Goschen Hospital, Mangalore, for a period upto the end of February, 1956 from the date of employment of Nurse-pupils.

3. The Government further sanction a non-recurring expenditure of Rs.350/- (Rupees three hundred and fifty) to each of the nursing staff sanctioned in paragraphs 1 and 2 above for the purchase of furniture and crockery and of Rs.5,200/- (Rupees Five thousand and two hundred only) for the purchase of 40 cots and 40 bed-side lockers for use in the above hospital.

4. The expenditure should be debited to the relevant sub-head under "38. Medical- b. Hospitals and Dispensaries- B. Mufassal Hospitals and Dispensaries." in the Budget Estimate for 1955-56.

(BY ORDER OF THE GOVERNOR).

Medl. duties – Lady Cooches Hospital, Manpelon – increase of bed strength – employment of addl. staff. –

The sanctioned bed strength of the Lady Cooches Hospital, Manpelon, is 120. The daily average number of in-patients and out-patients treated in the hospital during 1951 was 184 and 436 respectively. The construction of a ward of 40 beds in the hospital has been completed. The D.M.S. has proposed that the bed strength of the hospital may be increased from 120 to 160 and that the following addl. staff may be employed in the hospital to cope with the work:–

(1) one Asstt. Surgeon
(2) one Nursing Sister in charge
(3) Two Staff nurses
(4) Two Nurses
(5) Ten Nurse-pupils
(6) one U.D. clerk & one L.D. clerk
(7) Two compounders
(8) one Matron/Asstt.
(9) Two Peons

(10) One Gate Peon

(11) Five Nursing orderlies (Women)

(12) One Toti (Woman)

(13) One Sweeper

(14) One Cook.

The necessity for creating addl. posts has been explained in the letter on Pgs 1-3 of the addl. staff asked for. As when the proposed scale. The scale cost to Govt will be Rs. 37600/- recurring and Rs. 10450/- non-recurring p 6 c/-

2/ The proposal for increasing the bed strength of the hospital from 120 to 160 may be approved. In view of the present need for economy in expenditure it is for consideration whether the addl. staff asked for need be reduced or the whether the entire staff asked for may be considered. The proposal may be treated as a part II scheme for 1955-56. For orders.

3/ The remarks of the Finance may be awaited Lko.

16/3/54

What is the authority for the construction of a new ward of 40 beds? Govt No. 1093 Health of 2-4-51 p.f.f referred to by the DHS refers to an increase of bed strength from 80 to 120?

16/3/54

Part II

The construction of a 4th unit block of 40 beds was one of the schemes sanctioned in Govt. No. 1733 P.W. dt 4.5.50.

cl. p 5 cf (4)

The bed strength of the Govt Cheshem Hospital, Mangalore was 80 in 1950-51. It was increased to 120 during 1951-52. The present proposal is to increase it further by 40 to 160.

p. 6 cf (4)

A/p 2 above

X/p. 2 cf.

The in-patient attendance in the hospital during 1953 was 1824.

A ward of 40 beds has been constructed. The proposal involves heavy recurring and non-recurring cost as indicated at the beginning of this note. There are many Part IV schemes for increasing bed strength in the other overcrowded hospitals. As stated above, only two years ago the bed strength was increased by a good number, viz. 40. In order to reduce expenditure, the bed strength it seems, may be increased by 20 only during 1955-56. The question of further increasing the strength during 1956-57 may be considered in due course with reference to the attendance, other considerations.

In the circumstances explained, H.E.L.A. may be requested to confine their proposals to 20 beds only.

H.E.L.A.(H.II) DEPT.

NOTE FOR CIRCULATION.

In the Lady Goschen Hospital, Mangalore, a ward of 40 beds has been constructed. Since the daily in-patient attendance in the hospital was 184 in 1953, the Director of Medical Services has proposed that the bed strength of the hospital may be increased from 120 to 160. He has also asked for the additional staff mentioned on pp.1-2 ante. The extra cost to Govt. willbe Rs.37,600/- p.a. recurring and Rs.10,450/- non-recurring. This Dept. proposed that the proposal may be accepted and treated as a Part II Scheme for 1955-56. In view of the need for reducing expenditure, the Finance Dept. have suggested that it is sufficient to increase the bed strength of the hospital by 20 beds now.

It is for orders whether the proposal for increasing the bed-strength of the hospital from 120 to 160 and for sanctioning the additional staff indicated on pp.1-2 ante may be treated as a Part II Scheme for 1955-56 or whether it is sufficient to increase the bed strength of the hospital by 20 beds now in which case it seems necessary to sanction additional staff of only 1 Nursing Superintendent III Grade, 1 nurse, 1 Head nurse, 5 nurse-pupils, 1 L.D. Clerk, 1 compounder, 1 Maternity Asst., 2 Peons, 1 Gate Peon, 3 Nursing orderlies, one toti, 1 Sweeper and 1 ~~cook~~ cook.

May be circulated to M.(H.) and M.(F. & E.).

26/11/56

This Hospital will become a teaching hospital for the students of the Manipal Medical College. The bed strength may be increased from 120 to 160 as proposed by the D.M.S.

(Previous Finance notes on pages 3-4 above)

The orders in circulation on page 6 above may be seen. The draft note on the Part II Scheme may be accepted subject to the amendments indicated in pencil and to the remarks following:-

"Improvements to Taluk Headquarters Hospitals and increase of bed strength of badly overcrowded Hospitals" is a scheme in the Five Year Plan for which the following provision has been made in the Plan:-

Five Years' Provision (Rs lakhs)	1951-52 (Rs lakhs)	1952-53 (Rs lakhs)	1953-54 (Rs lakhs)	1954-55 (Rs lakhs)	1955-56 (Rs lakhs)
35.28	10.84	4.92	8.47	8.87	2.18

It is presumed that it is not the intention of H.E.L.A. to include this proposal under the above scheme in the Plan. If so, they may mention it in the note by a suitable addition.
